

Halloween Pattern Strips

Instructions:

Print strips on cardstock. Laminate for durability.

If desired, punch a hole in the left side of each strip. Secure strips together with a ring.

Give your student Unifix cubes (or other cubes that snap) and show her how to find the colors and copy the pattern on the pattern strip.

If you don't have Unifix cubes, consider using LEGO building bricks or another manipulative that is offered in a variety of colors.

When student completes the pattern, encourage her to move on to the next one.
