2. You may not redistribute the contents of my downloads in whole or in part, for any reason.
3. If you found this pdf on a site other than teachingmama.org, it is being used in violation of my copyright. Please email me at angela@teachingmama.org if you see this.
4. Do NOT upload this file to a shared website such as Dropbox, Mediafire, and Google Drive.

Before Playing

1. Print the game on card stock paper.
2. Find a Guess Who game and take out all the picture cards. (The cards I created fit the [newer version of Guess Who](#). I hope to make cards for the older version in the future.)
3. Cut out the small cards. Place them in the slots.
4. Cut out the larger cards. Place them face down and spread them out.

How to Play

1. Begin with all the words on your board up.
2. Draw one sight word card.
3. Place the sight word card in the slot and make sure the other player doesn't see the word. If your paper is thin, you can place another card behind it so the other player can't read the card.
4. Take turns asking the other player yes or no questions. The goal is to find out what their word is before the other player does.
5. After you ask a question, place down the words that don't match the description.

Sample questions:

1. *Does your word have two letters?*
2. *Is there an "e" in your word?*
3. *Does your word begin with the letter "t"?*

So for example, if I asked my opponent if their word has two letters and they said no, I would put down every word that had two letters.

In the end, you'll have one word remaining. If you followed the game right and the other player answered your questions correctly, it should match the sight word your opponent has.
